HUD HUMAN

1	This button is the root prim of the HUD. When minimized, the other buttons are hidden behind it to avoid cluttering the screen. It allows you to reduce or restore the full size of the HUD
2	This button allows you to launch a sword attack on another player by scanning nearby avatars.
3	This button allows you to show or hide the sword worn by the avatar. It dynamically displays or hides the sword.
4	This button increases the avatar's movement speed. It accelerates the avatar's movements when activated.
5	This button is under development. Once functional, it will display a message indicating the start of a battle.
6	This button scans avatars around the HUD wearer. It displays the status of detected avatars.
7	This button opens a menu with several options, such as viewing the guide, accessing the player's page on the website, managing allegiance, and creating a clan.
