

THE SOUL REAPER

The Soul Reaper is a special BloodMoon weapon that allows you to recover souls held by other players.

It is worn on the left wrist and used via your HUD.

How to use the Soul Reaper

1. Equip the Soul Reaper

Wear it on your left wrist so it can function correctly.

2. Activate it from the HUD

Pressing the Soul Reaper button scans nearby players who possess souls.

3. Choose your target

A list of detected players appears in a dialog box.

Select the player you wish to target.

4. Choose the soul to recover

A new list shows the souls held by that player.

Select the one you want to attempt to recover.

5. Acceptance request

A request is sent to the targeted player.

If they accept, the soul is transferred to you.

Usage rules

- The Soul Reaper only works on players who possess souls
- You must be close to your target
- The targeted player must accept the request
- The recovered soul becomes bound to your character

BloodMoon Tip

Soul thieves rarely act in the open...

Choose your targets wisely.
