

# SHOOTER GLASS

In the warm depths of the BloodMoon Tavern, where travelers gather between adventures and the whispers of night creatures mix with the laughter of mortals, small glasses known as Shooters can be found.

These special drinks allow players to restore part of their Liquid Vital, each one crafted for certain races of the BloodMoon world.

## Finding a Shooter

Shooters can be found inside the BloodMoon Tavern.

To obtain one:

1. Approach the bar of the BloodMoon Tavern.
2. Click the shooter dispenser.
3. The corresponding glass will appear in your inventory.

Each glass contains a different drink suited to the needs of the various races.

## How to Drink a Shooter

Once obtained, the shooter must be used correctly.

1. Wear the glass from your inventory.
2. Click the worn glass.
3. A drinking animation will play.
4. Your vital energy will be restored.

## Effect

All shooters restore:

**+20 Liquid Vital**

However, each drink is intended for specific races.

## Available Shooters

### Blood Shot

Reserved for creatures of the night.

Can be consumed by:

- Vampires
- Hybrids

### Lumen Shot

A mysterious luminous drink appreciated by certain creatures.

Can be consumed by:

- Lycans
- Hybrids

### Cider Shot

A simple and warm drink appreciated by mortals.

Can be consumed by:

- Humans

### Restriction

Each shooter can only be consumed by the allowed races.

If another race attempts to drink it, the glass will have no effect.

### The BloodMoon Tavern

The BloodMoon Tavern is not only a place to rest.

It is where humans, lycans and vampires cross paths between two stories, two alliances... or two betrayals.

Some come to forget their battles.

Others come to prepare the next ones.

But one thing is certain:

A good shooter can sometimes restore enough Liquid Vital to survive the next night.
